

H&H Consultancy

in collaboration with the

The Management Center – Bangor University - United Kingdom

In today's fast paced and highly competitive environment, managers who are closer to the front lines now have a greater span of influence within the organization playing a critical role as the driving force for corporate innovation and change, or more realistically corporate survival. Pressures and demands are growing, both individually and organizationally, for these middle managers to broaden their management and strategic perspectives as well as sharpen their ability to respond quickly and flexibly to increasingly complex management challenges.

Against this backdrop, ***a unique collaboration*** has been formed between two eminent academic and corporate institutions to meet such demands particularly of global corporations with a strong presence in the Sudan. Drawing on the complementary strengths and approaches, the ***H&H Consultancy***, Sudan's first collegiate business consulting and training organization and ***The Management Centre at Bangor Business School***, rated the No.1 business school in the UK's Research Assessment Exercise in the fields of banking, accountancy and finance have agreed to launch the BLEX program jointly and the program's certificate will be accredited and issued by The Management Center.

Titled as the ***Business Leadership Excellence for Executives (BLEX)***, the program will provide future global leaders an excellent ground for practical training and life-long networking. The diversity of participants representing a variety of industries, functions and corporate cultures, will create an invaluable opportunity for managers who need to develop their professional and interpersonal instincts and skills to lead as effective managers in cross-functional and multi-cultural settings, ***Locally, Regionally and/or Globally.***
